The Mayfair Pools Story

Mayfair Pools have been building and styling award-winning swimming pools throughout New Zealand and the Pacific since 1973.

In 1970 two enterprising Hawke's Bay brothers developed a unique system of swimming pool construction, which was designed to withstand the problems associated with frequent earthquakes and ground movement. Over a period of years the system was tested, modified and updated to comply with the strict council requirements. The system was finally patented in both Australia and New Zealand.

The establishment of a network of licensed pool builders and designers throughout these regions soon developed as demand for the new system from prospective pool owners grew.

Now, Mayfair Pools is one of the longest established and widely represented and respected pool builders throughout the South Pacific region and are widely acclaimed by

discerning domestic and commercial customers. Mayfair Pools are recognised within the industry for outstanding design and quality construction. Mayfair Pools' award-winning designs and superior construction techniques have been proven over many years, not only for the private pool owner but also for motels, hotels, commercial premises and schools.

We invite you to join the ever-increasing number of proud pool owners whose wise investment will accord them many years of healthy and hassle-free pool ownership and poolside relaxation. Remember the Mayfair Pools motto: Any Shape – Any Size – Anywhere!

Pool Builders Since 1973

Mayfair Pools Construction

Only our very own special trained designers, constructors and fibreglass applicators create magnificent Mayfair Pools.

IN A CLASS OF ITS OWN

Mayfair Pools' unique construction method is fully engineered and time proven. All construction is carried out and completed by Mayfair Pools' fully approved, trained builders, fibreglass applicators and agents. The patented Mayfair Pools construction system is the only system designed to suit the ground movements of New Zealand. The special materials required to conform to the high Mayfair Pools specifications are only available to licensed Mayfair Pool builders.

Mayfair Pools combine an insulated concrete substructure and formwork, which is then layered up with Mayfair Pools' high quality composite of fibreglass strand and resin. It is finished with a unique Mayfair Pools Aqua Shield finish to provide a non-porous low maintenance surface. The Mayfair Pool method of construction allows for complete freedom of design, reflecting the individual characteristics in each of the pools built for our discerning customers.

Whether you require your pool to be curved, angular, shallow or deep, from small areas in suburban garden settings to sloping cliff top sites, there has been no location or project that is beyond our scope of work to date.

Mayfair Pools, with their superior strength and flexibility, performed well in the 2011 Canterbury and 1987 Edgecumbe earthquakes. Most Mayfair Pools have remained undamaged, which is a testament to both their design and build quality. The few pools that were damaged were generally easy to repair due to the Mayfair Pools' construction methodology.

As all Mayfair Pools are custom designed and built on site, and with more than 45 years in pool construction and design, Mayfair Pools has the expertise to manage the most difficult swimming pool designs and settings.

Let a Mayfair Pools agent advise you on the best possible position for your pool, as it is important for the pool-scaping that follows construction, and ultimately the visual presentation of your aquatic asset on your property.

All pools proudly made in New Zealand

Lifestyle Pools

Mayfair Pools' designs are tailored to meet the needs of beautiful homes.

Your lifestyle and where your dreams come true. Nothing can surpass the magic of dipping into the crystal clear water of your own pool, and enjoying poolside with family and friends while relaxing in the privacy of your own luxurious surroundings.

It can be safely said that few cultures place such an emphasis on family, health and outdoor living and entertaining as we do in New Zealand. In fact, our home environment, which has been the focal point of our lives for decades, has undergone significant changes in recent times, to further enhance our singular passion for family fun, entertaining, and health and fitness.

As the pressure of other aspects of our lives continue to increase, the ease and accessibility of being able to relax and exercise in beautiful surroundings at home has become paramount.

Let your dream become a reality with a Mayfair Pool for your home, a swimming pool to cool off in the hot midday sun. Our award-winning designers will help you decide what design will compliment your property, transform investment, and ultimately add value!

Custom made pools to suit your lifestyle

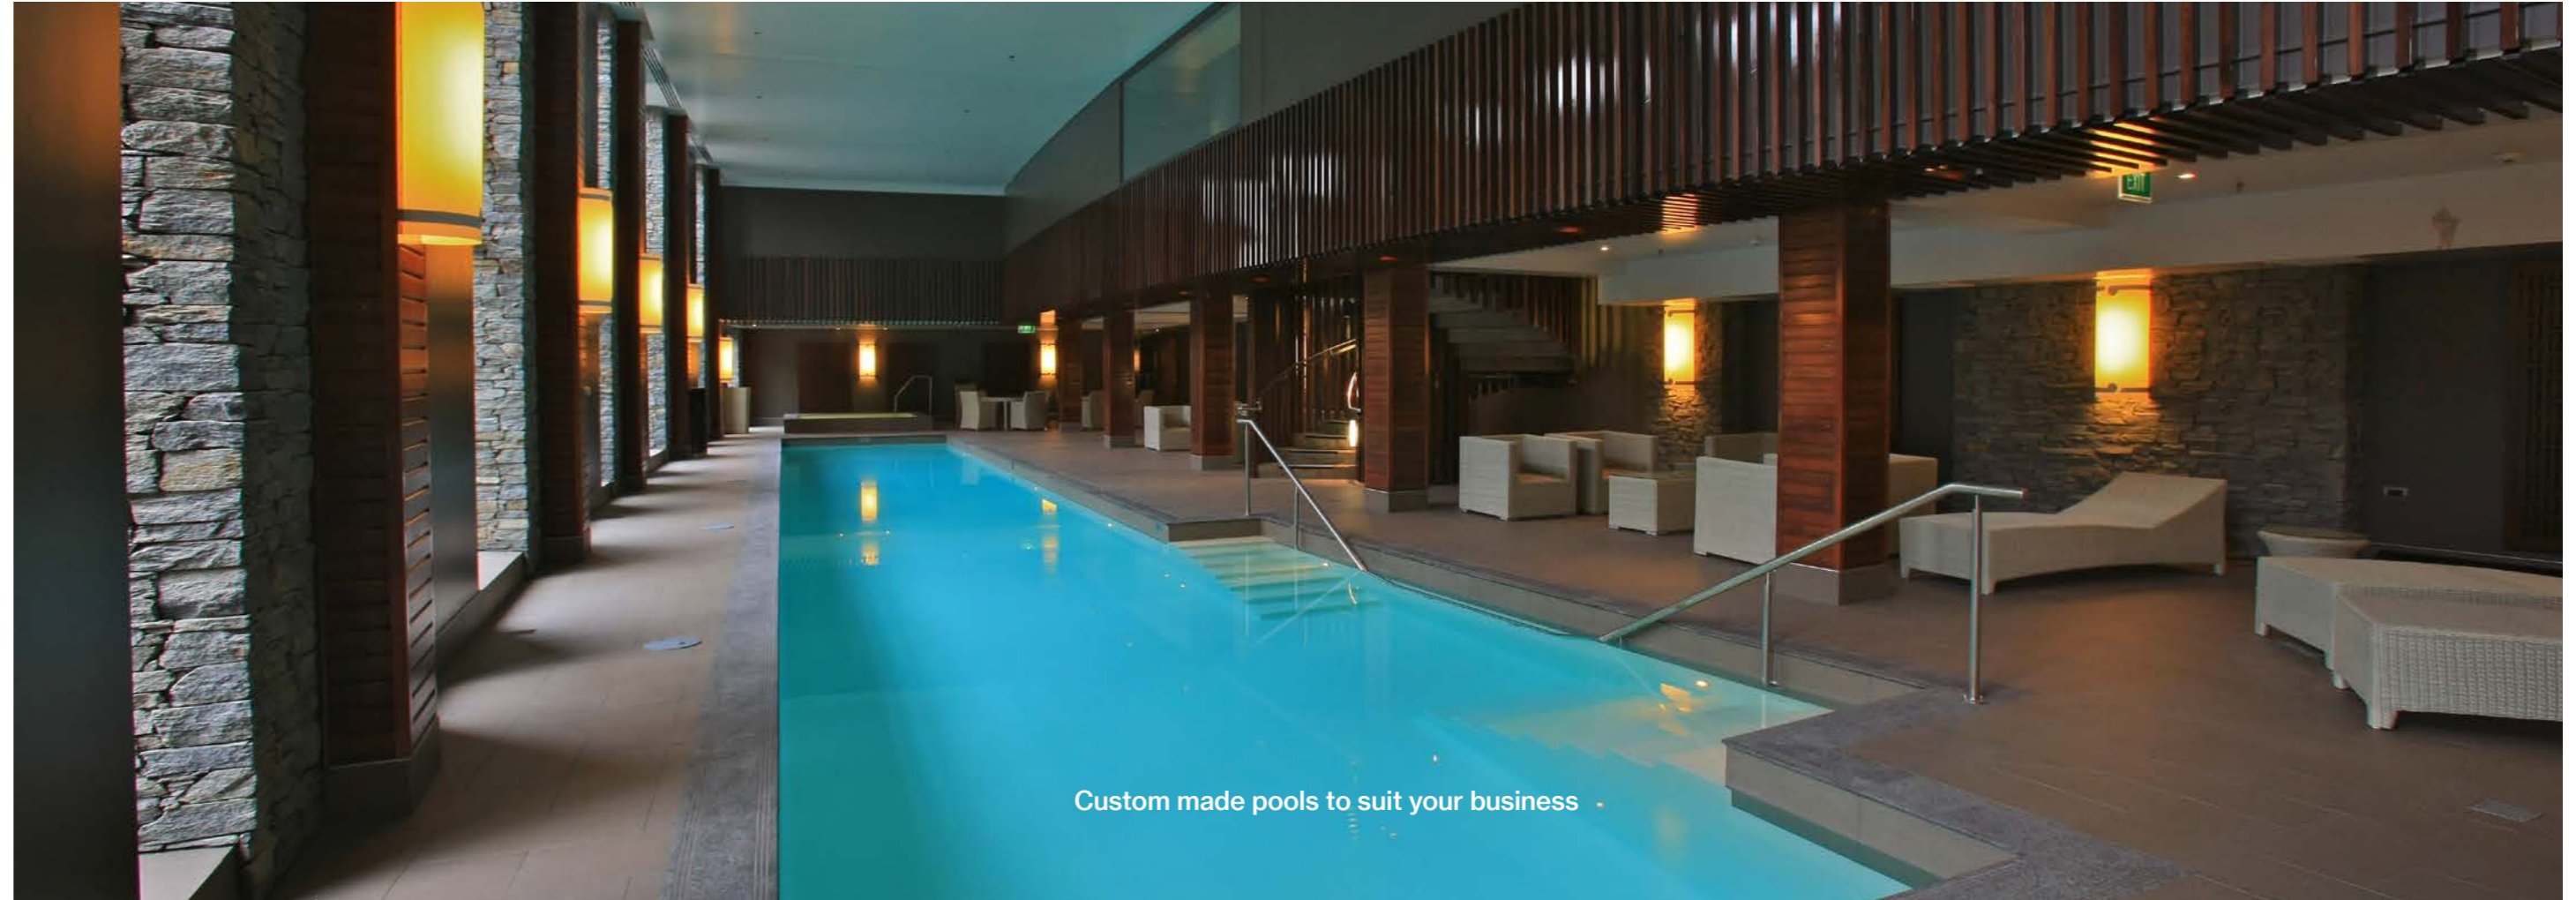

Commercial Pools

Mayfair Pools technology is a proven method of construction for commercial swimming pools, building on our approach of Any Size, Any Shape, Anywhere.

Mayfair Pools agents pride themselves on quality workmanship. This dedication to detail has seen Mayfair Pools selected for a wide range of commercial swimming pool projects, including hotels, motels, rooftop pools, and school pools, not only in New Zealand but also in Norfolk Island, Rarotonga, Samoa, Fiji, and most states of Australia and the South Pacific. Mayfair Pools have built thousands of pools in all types of areas, making Mayfair Pools one of the most widely represented pool companies.

In recent years Mayfair Pools have been engaged in developing a range of indoor commercial pools for apartment buildings and retirement villages. Again, all commercial pools can be custom designed and built to meet your client requirements.

School pools, which were commonplace in New Zealand, have been making a comeback. As well as designing and building your new school pool, Mayfair Pools can breathe life into your old, dated school pool with a Swimming Pool Renovation.

Custom made pools to suit your business

Indoor Pools

An indoor pool allows year round aquatic enjoyment in a controlled environment. Bringing the outdoors – indoors.

Whether for health, fitness or simply the luxury of enjoying year round use of your pool, a custom-designed indoor pool will enhance both your lifestyle and your environment in a way you may never have dreamed.

Planned, designed and beautifully finished, an indoor pool offers more than added value to your home – it also provides an elegant oasis to be enjoyed throughout the year.

Designed to your personal taste and expertly constructed, a Mayfair Pool will ensure you the luxury of an all-weather indoor/outdoor setting

where you can relax, exercise and entertain at your leisure.

Custom made pools to suit your building

Imaginative Design

Mayfair Pools offer unrivalled design flair when it comes to pool design and transforming your poolside settings for a better design, because the design of your swimming pool reflects as much about you as any other part of your home. Therefore you should not settle for just any pool.

Your Mayfair Pool will be designed and constructed onsite, to your specific preferences and requirements, enhancing both your lifestyle and your home – just for you.

Can we help with landscaping your pool area? Our design team has extensive experience on what makes a Mayfair Pool stand out from the rest to enhance your investment.

Every local body has strict guidelines in place and our team can help you work through these requirements to meet your obligations. Mayfair Pools' unique free-form construction

method coupled with the vast experience of our award winning poolscape design specialists ensures total peace of mind from the planning to the completion of your pool – no matter what your site or your budget.

Steps, swim-outs, beach areas, paddling pools, tiles and waterfalls and of course the safety aspects of your pool will be advised on and incorporated into your personal design requirements, ensuring the end result you desire.

Unrivalled Creativity - All pools custom made on site

Swimming Pool Renovations

Give Your Old Pool a Makeover with Mayfair Pools

Whether your old pool has paint problems or is leaking or broken with ground movement, Mayfair Pools agents are specialists in repairing, renovating and fibre-glassing all types of existing swimming pools. We offer the sensible solution to renovating or simply modernising an ageing pool. The unique Mayfair Pools process can remodel your pool of any construction by changing the shape, adding steps, and then finally lining the pool in fibreglass using the unique Mayfair Pools process. You can even look to improve the filtration of your old pool. The result will have your pool looking its absolute best and be trouble free for many years to come.

Colour Finishes and Features

A feature of every Mayfair Pool is the beautiful interior Mayfair Pool Aqua Shield finish. This low maintenance, easy clean surface is available in a range of modern colours to enable you to achieve the desired effect to suit your personal tastes and fit in with your new lifestyle surroundings. Your Mayfair Pool agent will be happy to help you decide on the most suitable colour for you, from our modern range of colours.

We invite you to join the ever-increasing number of proud Mayfair Pool owners, whose wise investment will accord them years of trouble-free pool ownership. nMayfair Pools, the international award-

winning professionals, offer clients unrivalled design flair, superior construction methods and incomparable customer service. Your licensed Mayfair Pools agent can also supply, fit and make recommendations on the complete range of pool-related equipment needed to complete your Mayfair Pools experience.
